Sustained Excellence in Professional Innovation and Creative Excellence

Nominated by Clodagh Ryan
Seconded: Jakov Moric & Richard Horner

John Thenganatt
Respirology CME Chair: 2016 onwards

innovative, engaging semi-annual CME day
• superb environment for learning & networking

Impact:
1. UofT Respirology recognized as a major provider of CME in Respirology in Ontario and beyond
2. Influence patient management of academic and community respirologists
3. Provide a valuable educational platform for junior faculty – communication and networking
4. Proceeds supported advanced clinical and research fellowships
Exceptional Contributions to the Development of Professional Practices

Cecilia Chaparro

CC: (1996) Cecilia became the Toronto respirologist who took the inexperienced faculty under her wings and trained three senior faculty to become lung transplant capable. Had Cecilia left after her fellowship, the Toronto lung transplant program would likely have closed and patient care would have been severely compromised. She is the foundation that the world's largest lung transplant Toronto program was built on.

MH: Cecilia was the glue that held it together. Cecilia has had a stellar career in the lung transplant and CF worlds. She is an outstanding teacher and mentor to many in the transplant program. I have long been an admirer of my colleague and friend.

Nominated by Liz Tullis
Seconded: Charlie Chan & Michael Hutcheon
